

Know who's cleared **before they clock in.**

FieldCred gives contractors, staffing firms, and safety teams a live credential system for every worker — with QR verification at the gate, expiration tracking, and audit-ready reporting.

- **Verify at the gate — no login**
- **Private worker data, isolated per company**
- **Audit-ready CSV export**

THE PROBLEM

Field and trades work runs on certifications — OSHA cards, journeyman licenses, confined space training, arc flash safety. They expire constantly, and one lapsed credential at the wrong moment means gate delays, missed renewals, and audit exposure.

Prevent gate delays

A supervisor scans a QR code and verifies credential status in seconds — without calling the office.

Catch expirations early

Safety and admin teams see valid, expiring, expired, and missing credentials at a glance — and renew before they lapse.

Support audit readiness

Records, certificate files, expiration dates, and exports live in one place — ready when an audit calls.

HOW IT WORKS

- 1 Upload credentials**
Add a worker and their certs — issuer, dates, badge images, certificate PDF. Minutes, not paperwork.
- 2 Generate a QR badge**
Every worker gets a shareable public link and QR code. Nothing to install, nothing to manage.
- 3 Verify at the gate**
Anyone with a phone camera scans and sees current status in seconds — no login, no app, no callback.

THE PLATFORM

- ✓ **Workforce directory** — search and filter the entire crew by name, skill, or certification.
- ✓ **Worker profiles** — full certification history, color-coded valid, expiring, or expired.
- ✓ **Instant QR verification** — public link shows status only; contact info stays private.
- ✓ **Admin compliance dashboard** — company-wide view, sortable and exportable, always current.
- ✓ **Data isolation** — each client gets a fully separate, private database.

WHO IT'S FOR

Contracting & trades companies

Manage crews of electricians, welders, technicians, and operators from one directory.

Staffing agencies

Place certified trades workers on client sites with credentials ready to verify on arrival.

Safety & compliance managers

Get workforce-wide visibility into what's expiring and what's already lapsed.

Supervisors & gate security

Verify a worker's credentials in seconds — not minutes, and not on the honor system.

ESSENTIAL
\$249/mo
Up to 75 workers

PROFESSIONAL
\$499/mo
Up to 250 workers

ENTERPRISE
Custom
500+ workers

Launch offer: \$299/mo for up to 100 active workers — unlimited credentials, QR pages & CSV export.

Stop calling the office to check a card.
